- About my CV

1. Tell me about your current job. What have you been doing? (Task)
   And your Task in team neusta Bremen is:

As you can see from my CV, I'm working as a Software developer for a big IT company in Bremen Germany.

My Task was:

-Bug fixing and errors analysis on existing Systems

-Develop an eCommerce/Webshop with magento 2.

-Develop modules according to customer requirements

-Collaborated with cross-functional teams to Design and develop innovative Software Applications.

2. What did your work at the Hochschule Bremen involve?

My work was to develop a single-page application platform where students can do their maths homework in the form of a quiz.

- Normal questions

3. How would you describe yourself in terms of your ability to work as a member of a team?

As software developer, I need to be able to work as part of a team. So, during my time at university and in my current job, I've learned to work in a team using methodologies such as Scrum …

4. How do you handle pressure?

When I work under pressure, I'm more motivated and I give my best.

5. What personal weakness has caused you the greatest difficulty on the job?

I guess at times, I want to do everything perfectly because I like to work hard. This is a big problem for the member of my team. They find it hard to follow my rhythm. Now, I try to adapt to their level and communicate a lot with them.

6. What did you most/least enjoy about your time at university?

Most enjoy:

During my time at university, I've enjoyed working on projects. In a project, we had a lot of time to achieve a result and we worked as a team.

Least enjoy:
My least enjoy about my time at university, was the final exam period.

7. What skills did you develop at university? (skills = compétance)
At university I developed skills in project management, application design, front-end and back-end development.

8. What was the most challenging aspect of your degree course?
The most challenging aspect of my degree course was managing time and priorities.

8.a) How did you manage this?
I managed it by applying discipline to everything I did.

9. How will your degree help you in this position?
My degree equips me with the knowledge, skills, and practical experience necessary to excel in this position.

10. Tell us something about yourself.
What I can say about myself is that I work hard, I'm disciplined, I like to learn new technology, new programming languages and I'm very introverted.

I would describe myself as someone who is ambitious, hardworking, and motivated by challenges.

11. STAR-Method
Situation: During our CAP-Project at ESIEA, we first presented a solution that everyone liked, but four weeks later, our supervisor wasn't convinced and gave new instructions**.**
Task: We had to abandon what we had done in four weeks and start again with a new solution in just one week.
Action: We had daily meetings, I worked closely with my team and managed to redo everything in a week, adapting to the new requirements.
Result: Despite the challenge, we successfully achieved the revised solution within the tight deadline, showcasing my teamwork and adaptability.

12.What do you like doing in your spare time? (spare time = temps libre)
In my spare time I like to watch Netflix, listen to music, or learn a new programming language on Udemy.

13.Why do you want this job?
I want this job because it matches/corresponds to my skills.

14. Why should we hire you? (hire = embaucher, engager)
You should hire me because I'm the ideal candidate for the position. I have work experience and I've already managed internal projects in my previous company.

15.What can you bring to this position?
I can bring a solid technical background and skill set, a strong work ethic and effective teamwork.

16.What is your biggest achievement?
My biggest achievement is successfully completing my studies on time, despite having the responsibility of supporting a family.

17.How do you typically approach new projects?
I typically approach new projects:
- by conducting thorough(approfondi) research
- defining clear objectives
- working closely with team members

18.What qualities do you look for in a manager?
I look for a manager who:
- is communicative and transparent,
- values collaboration,
- provides constructive feedback,
- demonstrates strong leadership qualities.

19.How do you handle stress?
-I manage stress by prioritizing tasks,
-taking short breaks to recharge,

-maintaining a positive mindset to approach challenges with a solution-oriented perspective

    20. How do you work in a team?

I collaborate well with my team by actively listening, sharing ideas, and contributing my skills to achieve our common goals.

    21. Describing your personal qualities

am a motivated and hard-working person with good communication skills.

    22. Describing your personal weakness

I sometimes tend to be overly critical of my own work, but I actively try to accept constructive feedback.

    23. Describing your achievements

I take pride in successfully completing projects on time, demonstrating my dedication and ability to deliver quality results.
